## **LANGUAGE WEEK**

**“Peace”- A universal language.....**

With an objective to highlight the significance of language in today's world, Edify School, Chhindwara celebrated Language Week from 17<sup>th</sup> October to 22<sup>nd</sup> October, 2022 in an ambience of joy, tranquility and unification.

Each department got actively involved in a variety of cultural programme where the students' showcased their language skills vividly emphasizing the role of different languages in our life through a string of activities like poetic sessions, discourses, thematic skits and group songs.

Vibrant speeches and value integrated skits embellished the whole event. Teachers drew the attention to the importance of each language in the teaching and learning process through the effective use of multimedia and video clippings. Exposing students to multiple languages enhances their access to people and resources thus, the students were encouraged to maximize their resources for fruitful learning experience. They were further motivated to choose and read different language books from our ever increasing multilingual library. The focus was on correct and habitual usage of English –*the key global language*. The little ones were encouraged to use simple and lucid language.

The world has become a melting point of cultural diversity today. Thus, fine tuning the language skills is the key to growth and understanding in this globally diverse domain.

Principal, Mr. Rashpal Singh Bhomrah induced and infused the young minds with the sense of developing home language and stressed the significance of English which truly connects the whole world together. “English as a language should be developed at the foundation stage and it is predominant to master the communicative skills as it is the need of the hour and society”, he said.

In a nutshell this amalgam of all languages had a positive and favourable impact on our students enhancing and widening their experience beyond academics.

## **CAREER COUNSELING**

We all agree with this saying, 'A book, A pen, A teacher and some guidance can change the world.' School is one such institution that greatly impacts a child's upbringing, thoughts, persona, and behaviour. These are the years when a child is moulded into a capable adult and a responsible citizen of the country. All these changes happen because the child is at the right age to transform.

Every school student needs career counselling irrespective of their school name or location. There was a time when people opted for career counselling only before getting into a professional world. However, as time has changed, people can realize how counselling at an early stage can be helpful and suggest better ways to plan career growth.

A career counseling session conducted to enlighten students of grade 10-12 about various career options after 12. The session was conducted by the resource person from outside.

An awareness on Janmashtami, the mythological stories on Krishna, Radha, Kansh – through plays and narrations; were presented to the children. The students were overjoyed when they broke the 'Dahi Handi' (pot of butter & curd) to grace this occasion. Dahi Handi is the most ancient joyful game played and celebrated, for the birth of Krishna in Janmashtami. It is celebrated amidst merriment. Young men and boys form teams, make a human pyramid and attempt to reach or break the pot. As they do so, girls surround them, sing with music, and cheer them on.

The event is based on the legend of the Krishna stealing butter and other milk products as a baby (he is also called Makhan chor).
